

Bishonath Lamichhane

0426535447

Motivated Mobile Application Development student on final year of graduation, with practical experiences in fundamentals of mobile app development, web development and project management. Proficient in both low level and high level languages, databases, building intuitive and user friendly designs, with a strong focus on writing clean and efficient code, ensuring all the required functionalities of the app. Eager to apply my technical and personal skills to contribute as Junior Mobile Application Developer, Junior Web Developer.

PROJECTS

Splitshare | [GitHub](#)

- Implemented a MVVM architecture using Fragments, ViewModel, and Repository patterns resulting in improved maintainability and code reusability.
- Utilized Android Studio's profiling tools to optimize performance
- Utilized SQLite as Local Database enabling efficient and offline transaction tracking, bill settlement features

Cinemarvel Reviews | [GitHub](#)

- Review based website based on Bootstrap for front end, and PHP for back-end functionalities
- MYSQL as a database for information storing and manipulation
- Utilized jQuery to ensure real time updates on the UI improving page load times
- Used AJAX to ensure asynchronous data loading improving page reloading times significantly
- Git for collaboration and Trello for tasks management

Book Management Application | [GitHub](#)

- Dual-interface Windows Forms application for book management: admin and user functionalities
- Utilized MVC architecture to ensure separation of concerns in .Net Framework environment
- Implemented a Web Services Layer to decouple the Data Access Layer from the Presentation Layer, facilitating easier maintenance and potential future integration with other systems."
- MS SQL to store and Manipulate data

Scholarlink Application Design | [Figma](#)

- Designed a comprehensive UI/UX for Scholarlink, focusing on intuitive and user-centric standards.
- Conducted heuristic evaluations with 2 experts, identifying key usability issues and informing design iterations.
- Designed over 25+ screens and interactive prototypes in Figma resulting in improved user experience.
- Conducted usability testing with 10+ participants, resulting in a 30% improvement in task completion rates and user satisfaction.

EDUCATION

Bachelor of IT (Mobile App Development)

[Academy of Interactive Technology \(AIT\) | 2025](#)

- GPA: 3.63/4
- Achievements
 - Merit based Scholarship(50%)
 - High Distinctions in 10 subjects out of 16 subjects
 - Distinctions in 6 subjects out of 16 subjects

Higher Secondary Education (Computer Science)

[Jaya Multiple Campus \(JMC\) | 2021](#)

- GPA: 3.86/4
- Achievements
 - Excellent Student Scholarship
 - Passed year 1 with 3.94 and year 2 with 3.78 GPA and topped the whole college
 - First runner up in inter-school mathematics competition

SKILLS & CERTIFICATIONS

• Programming Skills

- Mobile Development:
 - Android Development, Java, Kotlin, Swift, UIKit, React Native, Jetpack Navigation Framework, MVVM, etc.
- Web Development:
 - HTML, CSS, JavaScript, React, ASP.NET, PHP, Bootstrap, etc.
- Databases:
 - MySQL, SQLite, PostgreSQL, MS SQL
- UI/UX Design:
 - Figma
- Tools & Methodologies:
 - Git, Trello, Agile, Scrum, Cisco Packet Tracer

• Interpersonal Skills

- Time management skills
- Attention to detail
- Communication skills
- Teamwork, Leadership

EXPERIENCE

Peer Assisted Intervention Support (PAIS)

Academy of Interactive Technology (AIT), Sydney

Feb 2025 - Present (Casual)

- Assisting students in planning and executing various projects, assignments, meeting their deadlines and deliverables.
- Providing academic guidance and provide support on various IT subjects.
- Conducting weekly mentoring sessions to actively engage students in learning environments.
- Collaborate with Academic support teams to improve student performance.
- Engaging in various training sessions to enhance mentoring, leadership and other crucial skills

Customer Support

Sammy's GyMEA, Sydney

Jan 2023 - Present

- Delivering exceptional customer service, effectively addressing customer inquiries and resolving complaints to ensure customer satisfaction.
- Handling queries and complaints efficiently and effectively.
- Managing customer support, ensuring all customer issues were resolved promptly.
